

SKU: PVSTCNS120C6530

LINE VOLTAGE SERIES

The PVSTCNS120C6530 is a compact 180° D-shaped line voltage neon designed for continuous linear lighting applications. Its slim 8×16mm silicone profile delivers uniform dot-free illumination while operating directly from 100–120VAC.

Ideal for architectural outlines, signage, commercial projects, landscape accents, and outdoor decorative lighting.

IP65 RATED
Suitable for indoor and outdoor use

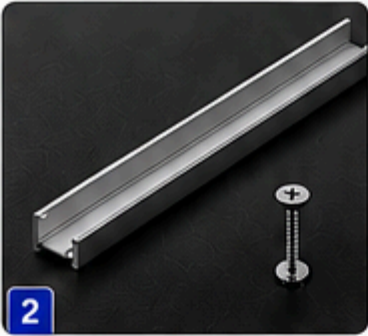

180° LIGHT OUTPUT
Uniform continuous illumination

DRIVERLESS AC OPERATION
Direct 100–120VAC input

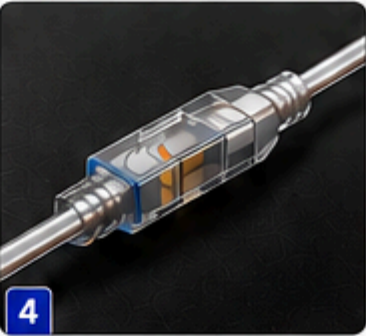

1
Cut to required length

2
Install mounting guide channel with screws

3
Insert neon into channel

4
Connect power lead

5
Finished illuminated installation

FEATURES

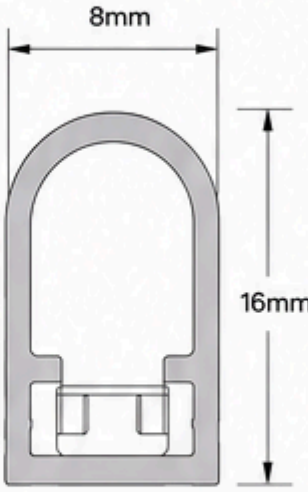

- Slim 8×16mm D-shaped profile
- Uniform dot-free illumination
- Flexible silicone construction
- Direct AC100–120V operation
- Suitable for indoor and outdoor applications
- IP65 weather resistant construction
- Ideal for architectural outlines and linear lighting
- Available in multiple color temperatures and colors
- Long 30M reel length
- Easy installation with mounting accessories

SPECIFICATIONS

Model	PVSTCNS120C6530
Product Type	180° D-Shaped Neon
Voltage	AC100–120V
Power	7.8W/M
Lumens	250 lm/M
LED Density	120 LEDs/M
Dimensions	8×16mm
Viewing Angle	180°
Cut Length	100cm
Reel Length	30M
IP Rating	IP65
Available Colors	2700K, 3000K, 6000K, Red, Green, Blue
Operating Temperature	–20°C to +45°C

DIMENSIONS

180° D-SHAPED PROFILE

Unit: mm

INCLUDED IN PACKAGE

Neon Strip (30M Reel)

Mounting Guide Channel (With screws)

Power Connector (With 1m wire)

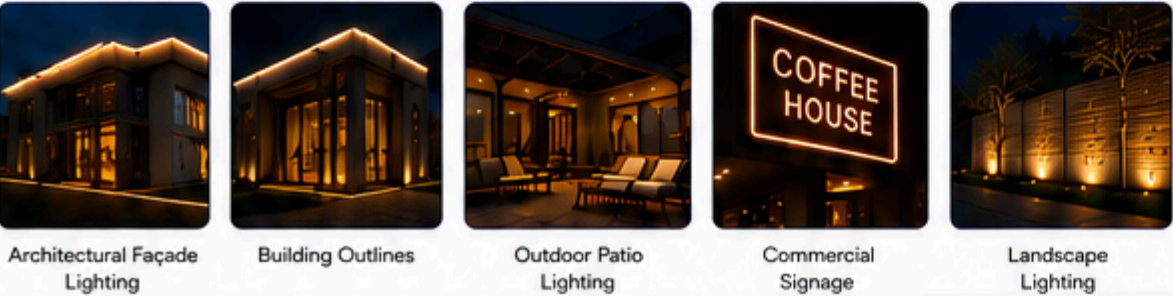

Silicone Adhesive (For waterproofing)

End Cap (With hole)

APPLICATIONS

IP65 RATED

- Suitable for outdoor exposure.
- Do not submerge in water.
- Maintain minimum 5 ft distance from pools, fountains, or standing water.

5 FT
