

WET LOCATION RATED 5-IN-1 DIMMABLE LED DRIVER

Picovolt Wet Location Rated 5-in-1 dimmable LED drivers offer maximum flexibility with support for Triac, ELV, 0–10V, 1–10V, and PWM control. Designed for high-wattage applications and long LED strip runs, these drivers provide stable 24V output for demanding residential and commercial lighting projects. Ideal for Indoor and Outdoor use.

VOLTAGE TRIM FINE TUNING KEY

Ensures consistent, high-quality illumination on long LED strip runs by compensating for voltage drop and optimizing output performance.

11	192W 24VDC dim	100-132 VAC 50/60Hz	PVDR-192-24 D	24 VDC, 192W	IP65	CLASS 2	2*4 Amp	Yes	

DIMENSIONS

FEATURES

- 5-in-1 Dimming: Triac, ELV, 0–10V, 1–10V, PWM
- Wet location rated IP65 for indoor and outdoor use
- Constant voltage 24V output
- High efficiency and low noise
- Built-in active PFC
- Overload, over-voltage, and short-circuit protection
- Voltage trim fine tuning key
- Class 2 power supply

APPLICATIONS

- LED strip lighting
- Landscape and architectural lighting
- Facade and accent lighting
- Cove and linear lighting
- Under cabinet lighting
- Outdoor entertainment areas
- Residential & commercial projects

HIGH WATTAGE
OUTPUT
Ideal for long LED
strip runs

WET LOCATION
RATED IP65
Built for tough outdoor
environments

FLEXIBLE DIMMING
5 control methods in
one driver

EASY INSTALLATION
Spacious wiring
compartment

ENERGY EFFICIENT
High performance
with low power loss
